STEPS TO CONNECT TO WIRELESS NETWORK

1. **Find MAC (physical) address**
   
   How to find the MAC address of your device:
   
   - **Windows**:
     - Start > Search > cmd > getmac -v > Wireless Network Connection
   - **Mac**:
     - System Preferences > Network > AirPort > Advanced > AirPort ID
   - **iOS**:
     - Settings > General > About > Wi-Fi Address
   - **Android**:
     - Settings > About Phone > Hardware Information > Wi-Fi MAC address

2. **Login to NetRegister**
   
   Sign in to [http://netregister.metu.edu.tr](http://netregister.metu.edu.tr) with your user name and password. Then select Wireless Network Authentication.

3. **Register the MAC address**
   
   Read the regulations, and write the MAC address at the bottom of the page, then click I Accept.

4. **Choose "ng2k" to connect**
